

## COURSE PROGRAMME

### Day 1

8.00am- Registration  
9.00am

9.00am- Introduction of course  
10.30am

10.30am- Tea Break  
11.00am

11.00am- Identification, classification and  
13.00pm properties of Hazardous Wastes

13.00pm- Lunch Break  
14.30pm

14.30pm- Introduction to scheduled waste  
15.30pm legislation and acts

15.30pm- Tea Break  
15.45pm

15.45pm- Storage and handling of Scheduled  
17.00pm Wastes

### Day 2

8.30am- Labelling of Scheduled Wastes  
10.30am

10.30am- Tea Break  
11.00am

11.00am- Record keeping and reporting  
13.00pm requirement (e-consignment note)

13.00pm- Lunch Break  
14.30pm

14.30pm- Practical exercise  
15.30pm

15.30pm- Tea Break  
15.45pm

15.45pm- Practical Exercise  
17.00pm

## SCHEDULED WASTE MANAGEMENT AT WORKPLACE

Date : 19 - 20 March 2018

Venue :

**UNIMAS Business School**  
**Level 4, UNIMAS City Campus**  
**Lot 77, Section 22**  
**Kuching Town Land District**  
**Jalan Tun Ahmad Zaidi Adruce**  
**93150 Kuching**

**FOR MORE DETAILS,  
PLEASE CONTACT**

**Mdm. Shamsiah Sahari**

Tel: 082-583329

Hp: 019-3870500

Email: sshamsia@unimas.my

**Miss Siti Hazirah Adam**

Hp: 016-8678439

Email: ashazirah@unimas.my

**Mdm. Wiermawaty Baizura Awie**

Hp: 013-5707334

Email: awbaizura@unimas.my

**Faculty of Engineering**  
**Universiti Malaysia Sarawak**  
**94300 Kota Samarahan**  
**Sarawak**

# COURSE OUTLINE

## Introduction

Scheduled Waste means any waste falling within the categories of waste listed in the First Schedule of the Environmental Quality (Scheduled Wastes) Regulation 2005. They are very toxic and hazardous to environment as well to human health. Improper management of such wastes will cause problems such as non-compliances and illegal dumping cases.

Hence it requires a comprehensive knowledge and skills among the managers in the handling of scheduled wastes in an effective, safe and sound manner as well as always in compliance with the law.

At the completion of this course, the participants would gain the knowledge on the following:

- Effective management and handling of scheduled wastes.
- Able to identify, classify and categorize scheduled wastes correctly.
- Able to implement current practices in the effective scheduled waste management
- Able to comply with the

Regulation 15 of the Environmental Quality (Scheduled Wastes) Regulations 2005 states that all persons responsible and involved in the handling and managing scheduled wastes at their facilities must be properly trained to achieve a certain level of competency in order to ensure full compliances with the regulations.

## Objective

To enable persons managing scheduled wastes at their facilities to achieve certain level of competency in knowledge and skills for an effective management of scheduled wastes that complies with the Environmental Quality Act 1974 and in accordance with the Environmental Quality (Scheduled wastes) Regulations 2005.

## Course Methodology

- Lectures and discussion
- Practical training

## Course Module

- Identification, classification and properties of Hazardous Wastes
- Introduction to scheduled Waste legislation and acts
- Storage and handling of Scheduled Wastes
- Labeling of Scheduled Wastes
- Record keeping and reporting requirement (e-consignment note)
- Practical exercise

## Who should attend

Managers / supervisors who are involved in managing toxic and hazardous waste (scheduled waste) at industrial/laboratory facilities.

## About Speaker

Siti Hazirah Adam is a registered chemical engineer who holds a B. in Chemical Eng. And M. Eng. In Chem. from UTM, Skudai. Siti Hazirah Adam experience in industrial pollution control spans over 8 years. Siti Hazirah Adam is a certified trainer 'Train the Trainer'. She also served as lecturer at UNIMAS. **(Competent Person Serial Nos.: CePSWaM/00436 and CePIETSO)** Certified from Jabatan Alam Sekitar .

## Course Fee

RM1,908.00 per person including 6% GST

## Closing Date

7 days before the course
